**Subject:** FW: Co-operating Agency Review of Rover Pipeline

Hi Tom,

I just tried calling you. Hope all is well. Your voicemail message says you are out of the office all week. Therefore, I'm sending this email to reiterate/clarify the voicemail message I just left for you regarding the below emails.

- R5 will send out one (1) EPA response to FERC that incorporates all comments R3, OFA (GHG/climate change) and R5 have on the Rover Pipeline ADEIS.
- When I respond to FERC's below email I will let FERC know that R3 (you) will contact FERC directly to provide your contact information and the number of CDs, if any, that R3 prefers for the ADEIS review.
- If EPA receives the ADEIS on Nov. 16, then please email me R3's ADEIS review comments by COB Wed., December 2, 2015.

Thank you,

Virginia Laszewski

Hi Tom,

Please read below email from FERC. I will call you later today (What time are you available?) to discuss how you (R3) would like to coordinate on review and submittal of EPA comments regarding the administrative DEIS (ADEIS, a.k.a. Preliminary DEIS). Thank you.

**Subject:** Co-operating Agency Review of Rover Pipeline

Good morning Cooperating Agencies:

We are currently planning to submit the administrative draft version of the Environmental Impact Statement (EIS) for the Rover Pipeline, Panhandle Backhaul, and Trunkline Backhaul

Projects to you next week. The ADEIS is being providing to each of you as a cooperating agency so you may provide edits and offer comments for our consideration for inclusion in the Draft EIS that will be issued to the public.

We ask that you complete your review and provide feedback no later than **three weeks** following receipt of the ADEIS. Assuming you receive the DEIS on November 16, this deadline will be December 7. We typically give 2 weeks for review, but because this period will fall over the Thanksgiving Holiday, we are allowing three calendar weeks for review. In an effort to get the ADEIS to all recipients in a timely manner and to aid in version control, it will posted to OneDrive. This is a web-based site not unlike an FTP site, however the added advantage is that it allows us to share a document for review and editing by multiple people at one time. We will send instructions on how to use OneDrive with the notice that the ADEIS is available. Because we plan to distribute the ADEIS in electronic form, our preference is that you provide us comments (or edits) directly within the word document itself using the Track Changes feature. You will not need to draft up a formal letter to us with your comments.

Alternatively we recognize not everyone will want to work in OneDrive, so we will mail a CD with the electronic files to those who request us to do so. Finally, if there are other contacts within your agency to whom we should provide a copy of the ADEIS, please reply to this email with their contact information so we can add them to the distribution list.

Thank you for your continued assistance and please be on the lookout for future instructions and the ADEIS itself!
